## TrackSite Free Crack Torrent

TrackSite Free is an advanced, cross-platform, portable, easy-to-use, real-time, professional quality monitoring and statistical analysis system for website traffic, excellent tool for website management and development. TrackSite is a unified and all-in-one system to control and analyze web traffic. It supports real-time, historical, statistical, and visual reports for web owners and developers. You can use it as a web analytics tool, a web server, a web content management system, and a web proxy server. It is the most complete, powerful, and efficient free traffic monitoring, analysis and management system. Feature: Statistical Report - It gives a detailed report of website traffic, such as pageviews, visits, bounce rates, time on site, referring sites and country, etc. Unified Web Server - Provides many powerful functions for web owners and developers. It supports unifying the web server, the web proxy server, the website and the web browser. You can access the website under any machine or device. Fully Responsive - Using css3, this free statistics tool can render automatically according to any screen resolution and desktop/laptop/tablet/phone screen. Real-Time - It can receive real-time traffic statistics from Google Analytics, and store statistics in the CSV format for further analysis and report. Advanced Customization - You can edit the real-time report using CSV format, easily. Easily Set up and Use - TrackSite Free has many wizards to simplify the configuration, like pageviews, visits, bounce rates, time on site and much more. Configurable - You can customize the reporting and data export as you like. Export - Export all the statistic data to CSV format, in Excel format. Change Tracking - It can help website owners and developers to control what's changed in the website. Powerful In-Browser - With the TrackSite In-Browser and TrackSite Free, you can access any website under any machine or device, even with no login, with one click. Support PHP, ASP, ASP.NET, Node.js, Python, Ruby, Perl, Java, C#, iOS, Android, Unity3D, and many more. For more information, please download the trial version or the documentation. Note: This product is a Site license, which means you can use TrackSite Free to manage and monitor the

## What's New In?

\*\*\* HOTNEW \*\*\* TrackSite Free is an advanced, cross-platform, portable, easy-to-use, real-time, professional quality monitoring and statistical analysis system for website traffic, excellent tool for website management and development.
